This all-in-one guide explains the copyright rules and how to make sure you're not breaking them when it comes to using someone else's material. **Chief Marketing Officers at Work** Josh Steimle,2016-08-04 Read 29 in-depth, candid interviews with people holding the top marketing roles within their organizations. Interviewees include CMOs and other top marketers from established companies and organizations—such as Linda Boff of GE, Jeff Jones of Target, and Kenny Brian of the Harvard Business School—to startups—such as Matt Price of Zendesk, Seth Farbman of Spotify, and Heather Zynczak of Domo. Interviewer Josh Steimle (contributor to business publications such as Forbes, Mashable, and TechCrunch and founder of an international marketing agency) elicits a bounty of biographical anecdotes, professional insights, and career advice from each of the

prominent marketers profiled in this book. Chief Marketing Officers at Work: Tells how CMOs and other top marketers from leading corporations, nonprofits, government entities, and startups got to where they are today, what their jobs entail, and the skills they use to thrive in their roles. Shows how top marketing executives continuously adapt to changes in technology, language, and culture that have an impact on their jobs. Locates where the boundaries between role of CMOs and the roles of CEOs, CTOs, and COOs are blurring. Explores how the CMO decisions are now driven by data rather than gut feelings. The current realities in marketing are clearly revealed in this book as interviewees discuss the challenges of their jobs and share their visions and techniques for breaking down silos, working with other departments, and following the data. These no-holds-barred interviews will be of great interest to all those who interact with marketing departments, including other C-level executives, managers, and other professionals at any level within the organization.

Default Gregory Makoff,2024-02-01 The dramatic inside story of the most important case in the history of sovereign debt law Unlike individuals or corporations that become insolvent, nations do not have access to bankruptcy protection from their creditors. When a country defaults on its debt, the international financial system is ill equipped to manage the crisis. Decisions by key individuals—from national leaders to those at the International Monetary Fund, from holdout creditors to judges—determine the fate of an entire national economy. A prime example is Argentina's 2001 default on $100 billion in bonds, which stands out for its messy outcomes and outsized impact on sovereign debt markets, sovereign debt law, and IMF policy. Default is the riveting story of Argentina's sovereign debt drama, which reveals the obscure inner workings of sovereign debt restructuring. This detailed case study describes the intense fight over the role of the IMF in Argentina's 2005 debt restructuring and the ensuing bitter decade of litigation with holdout creditors, demonstrating that outcomes for sovereign debt are determined by a complex interplay between financial markets, governments, the IMF, the press, and the courts. This cautionary tale lays bare the institutional, political, and legal pressures that come into play when a country cannot repay its debts. It offers a deeper understanding of how global financial capitalism functions for those who work in or study debt markets, international finance, international relations, and international law.
