Psychosymbology teaches you how to contact the part of your brain which contains all the secrets. Especially, we people often use only our left brain. The left side brain is very linear and rational. The right side brain is used very little by us and the scientists are very much astonished by this fact of right brain activities. The right side brain has become the treasure of knowledge and creativeness. Normal human use their 5 - 10% of brain and Genius use their 15 - 20 % by this concept of brain usage researchers wanted to know the benefits dreams and deep sense of its powers. Right brain powers are unbelievable. Most of the time, all People just use their Left Brain only. Very few people only know the secret of using Right brain but that's not a very big secret to follow. Just some simple practices to follow in our daily life. One can achieve any kind of thing by using their Right Brain. There are some symbols and colours to activate our Right brain. By using these kinds of techniques one can easily achieve the highest level in their life. It is the language of brain, it's easy to learn, easy to use, and easy to develop the greatest source of human psychic power ever discovered by man. The right part of brain is a vast and boundless sea of knowledge, wisdom, and potential. It remains untapped because people try to communicate with it through the use of words. But the sub-conscious does not understand words. Practicing Psychosymbology is easy; you have to concentrate on a specific symbol according to your need. By gazing at a symbol you are permitting your sub-conscious mind (right brain) to respond to that stimulus in its own way, with out dictating your desire, need or wish, you leave every thing for the higher forces.

A Crime So Monstrous E. Benjamin Skinner, 2013-03-22 Two hundred years after Parliament passed the Abolition of the Slave Trade Act, over 27 million people worldwide languish in slavery, forced to work, under threat of violence, for no pay. In Africa, hundreds of thousands are considered chattel, while on the Indian subcontinent millions languish in generational debt bondage. Across the globe, women and children, sold for sex and labour, are already the second most lucrative commodity for organised crime. Through eviscerating narrative, *A Crime So Monstrous* paints a stark picture of modern slavery. Skinner infiltrates trafficking networks and slave sales on four continents, exposing a flesh trade never before portrayed with such vivid detail. From mega-harems in Khartoum to illicit brothels in Bucharest, from slave quarries in India to urban child

markets in Haiti, he lays bare a parallel universe where lives are bought, sold, used and discarded. The personal stories related here are heartbreaking but in the midst of tragedy Skinner also discovered a quiet dignity that leads some to resist and aspire to freedom. He bears witness for them and for the millions that are held in the shadows - all victims of what is the greatest human-rights challenge facing our generation.
