The Big Dance Barry Wilner, Ken Rappoport, 2012-02-16 Covered by four networks, allowing every game to be televised, "March Madness" has become an American phenomenon as anticipated as the Super Bowl. This is the story of the tournament from its beginnings seventy-three years ago as just an eight-team "bracket" to today's sixty-eight-team format. From the "Cinderella" teams like Butler and Gonzaga to perennial powerhouses such as UCLA and Kentucky, covering buzzer-beaters, upsets, and dynasties, the story of one of the most-followed sporting events in history is comprehensively told here.

**A Coaching Life** Gary Blair, Rusty Burson, 2017-01-27 “It’s still difficult to describe the scene after the final buzzer sounded, because the moment was just so damned surreal,” writes head coach Gary Blair following the conclusion of the title game of the 2011 NCAA Division I women’s basketball tournament. “So many things happened that I will never forget . . . kissing my wife on the floor of Conseco Fieldhouse . . . looking toward the stands, where my grandson was . . . flashbulbs popping as the Aggie Band played triumphantly . . . our players and coaches wildly celebrating the biggest win in women’s basketball history at Texas A&M . . . tears streaming down the faces of former players . . . I remember thinking that I wished I could somehow stop time.” This memory and countless others form the greatest treasure of Coach Blair’s life, as he makes clear in this engaging, inspiring memoir, written with veteran sports journalist and author Rusty Burson. Indeed, as Blair says, “What I cherish the most are the memories of these players and coaches.” Beyond the trophies, beyond the impressive won-lost record compiled over more than four decades of coaching, beyond even the ungrudging professional respect he has achieved among his peers in a fiercely competitive occupation, Gary Blair values the images, moments, and memories collected during a life spent doing what he loves most: coaching and mentoring young women on the basketball court. In *A Coaching Life*, Coach Blair offers readers a “freeze-frame” view of a storied career. He serves up more than a few of his favorite memories with wit, grace, and humility. In the process, he invites readers to reflect on life’s wins and losses and, most importantly, what both have to teach us.

The Final Season Maria Cornelius, 2016-09-30 Since the beginning of her career as Lady Vol head coach at twenty-two years old, Pat Head Summitt effectively established the University of Tennessee Lady Vols as the top women’s athletics program in the nation. The winningest coach in the history of NCAA basketball, Summitt overcame one obstacle after another on the road to every victory, but it is the lives she has impacted along the way that tell the story of her true legacy. Forever a role model for young women, expecting nothing but the best from her players and from those around her, her legacy has never faltered—not even during her final season as head coach, when she faced her fiercest adversary yet: the diagnosis of early-onset Alzheimer’s disease.

Understanding by Design Grant P. Wiggins,Jay McTighe,2005 What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of Understanding by Design offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

**Albert D. Kirwan** Frank F. Mathias,2021-11-21 The name Albert Kirwan is inextricably bound with the University of Kentucky—in sports, scholarship, and administration. His skills and interests were so many and varied that his accomplishments in one area could not long satisfy his restless nature; he captained and later coached the U.K. Wildcats, took degrees in law and history, wrote or edited six books, taught a full load of classes, became dean of students, graduate dean, and finally, was unanimously installed as seventh president of the University. Under his guidance, the UK graduate program was improved and strengthened; he presented the University's case before the National Collegiate Athletic Association council concerning the 1948–49 basketball gambling scandals; he helped to see the University through its first tense period of integration; and he was able to handle student activism in the 1960s with both courage and understanding. Beyond this, he was a gentle, devoted family man. His wife, Betty, his sons, and his sister have shared their memories of Albert Kirwan, providing much of the material included in the biographical section of this book; and Kirwan himself left a tape, *Some Memories of My Life*, recorded in 1971, which Frank Mathias has blended with information culled from letters, files, and interviews. During his lifetime, Albert Kirwan was often invited to speak before historical associations, at commencement exercises, athletic assemblies, on television, and on radio. Records of these speeches document his far-ranging thoughts on history, education, athletics, politics, the South, the Civil War, and civil rights, revealing him as a responsible and responsive liberal Kentucky gentleman. He was a man of many moods, and had a wry, tongue-in-cheek humor that enlivened his lectures and talks. The second section of the book is a selection of his speeches, letters, and excerpts from his articles and books, including a chapter from John J. Crittenden: *The Struggle for the Union*, which won the Sydnor award. Reproduced here are Kirwan's analysis of the Kentucky court struggle of the 1820s and his statement before the Southeastern Conference on the penalty assessed against Kentucky's basketball team; and, here too are the more casual banquet speeches, the bantering affection of a warm, sensitive man among friends. Here is a man who has given his whole life to [the University of Kentucky], Happy Chandler said of him, ... surely he must love it as perhaps no other person could.

**Black Women, Intersectionality, and Workplace Bullying** Leah P. Hollis,2022-06-15 Black Women, Intersectionality, and Workplace Bullying extends and enriches the current literature on workplace bullying by examining specifically how work abuse disproportionality hurts women of color, affecting their mental health negatively and hence their career

progression. In this interdisciplinary text, Hollis combines the fields of intersectionality and workplace bullying to present a balanced offering of conceptual essays and empirical research studies. The chapters explore how researchers have previously used empirical studies to address race and gender before arguing that the more complex an identity or intersectional position, such as being a Black gender fluid woman, the more likely a person shall experience workplace bullying. The author also looks at how this affects Black women's mental health, such as through increased anxiety, depression, insomnia, and self-medicating behaviors, before looking specifically at Black female athletes as a study, the topic of colorism at work and its impact on Black women, and how workplace bullying compromises organizations diversity and inclusion initiatives. This book will be of immense interest to graduate students and academics in the fields of social work, ethnic studies, Black studies, Africana studies, gender studies, political science, sociology, psychology, and social justice. It will also be of interest to those interested in intersectionality and how this relates to race and gender of women.
