The Sign of the Beaver Elizabeth George Speare,1983-04-27 A 1984 Newbery Honor Book Although he faces responsibility bravely, thirteen-year-old Matt is more than a little apprehensive when his father leaves him alone to guard their new cabin in the wilderness. When a renegade white stranger steals his gun, Matt realizes he has no way to shoot game or to protect himself. When Matt meets Attean, a boy in the Beaver clan, he begins to better understand their way of life and their growing problem in adapting to the white man and the changing frontier. Elizabeth George Speare's Newbery Honor-winning survival story is filled with wonderful detail about living in the wilderness and the relationships that formed between settlers and natives in the 1700s. Now with an introduction by Joseph Bruchac.

Calico Captive Elizabeth George Speare,2001-10-29 From a Newbery Medal-winning author, an "exciting novel" about a colonial girl's experience during the French and Indian War (Saturday Review). In the year 1754, the stillness of Charlestown, New Hampshire, is shattered by the terrifying cries of an Indian raid. Young Miriam Willard, on a day that had promised new happiness, finds herself instead a captive on a forest trail, caught up in the ebb and flow of the French and Indian War. It is a harrowing march north. Miriam can only force herself to the next stopping place, the next small portion of food, the next icy stream to be crossed. At the end of the trail waits a life of hard work and, perhaps, even a life of slavery. Mingled with her thoughts of Phineas Whitney, her sweetheart on his way to Harvard, is the crying of her sister's baby,

Captive, born on the trail. Miriam and her companions finally reach Montreal, a city of shifting loyalties filled with the intrigue of war, and here, by a sudden twist of fortune, Miriam meets the prominent Du Quesne family, who introduce her to a life she has never imagined. Based on an actual narrative diary published in 1807, *Calico Captive* skillfully reenacts an absorbing facet of history. "Vital and vivid, this short novel based on the actual captivity of a pre-Revolutionary girl of Charlestown, New Hampshire, presents American history with force and verve." —Kirkus Reviews

Bringing Back the Beaver Derek Gow, 2020 Since the early 1990s - in the face of outright opposition from government, landowning elites and even some conservation professionals - Derek Gow has imported, quarantined and assisted the reestablishment of beavers in waterways across England and Scotland. 'Bringing Back the Beaver' is farmer-turned-ecologist Gow's inspirational and often riotously funny firsthand account of how the movement to rewild the British landscape with beavers has become the single most dramatic and subversive nature conservation act of the modern era.

Badir and the Beaver Shannon Stewart, 2019-04-16 It's Ramadan, a time to focus on good deeds and to fast, and Badir and his brother, Anis, are out for a walk one evening while they wait for their iftar meal. In the park Badir sees a rat. A very, very large rat. He soon learns it's actually a beaver, an animal that doesn't live in Tunisia, the country Badir and his family have emigrated from. It turns out that some of the neighbors who enjoy the park think this beaver is a bit of a pest, but Badir thinks it's wonderful and learns everything he can about the iconic Canadian animal. When a petition is started to remove the beaver, Badir, who knows firsthand how difficult it is to leave your home behind, rallies his classmates to save it. And with a little help from new friends, the kids learn that collaboration and faith can change the way we think about the world. The epub edition of this title is fully accessible.

Busy Beaver, The Nicholas Oldland, 2016-04-01 A clueless beaver discovers the impact his actions have on others.

The Beaver Manifesto Glynnis Hood, 2011 Beavers are the great comeback story--a keystone species that survived ice ages, major droughts, the fur trade, urbanization and near extinction. Their ability to create and maintain aquatic habitats

has endeared them to conservationists, but puts the beavers at odds with urban and industrial expansion. These conflicts reflect a dichotomy within our national identity. We place environment and our concept of wilderness as a key touchstone for promotion and celebration, while devoting significant financial and personal resources to combating the beaver problem. We need to rethink our approach to environmental conflict in general, and our approach to species-specific conflicts in particular. Our history often celebrates our integration of environment into our identity, but our actions often reveal an exploitation of environment and celebration of its subjugation. Why the conflict with the beaver? It is one of the few species that refuses to play by our rules and continues to modify environments to meet its own needs and the betterment of so many other species, while at the same time showing humans that complete dominion over nature is not necessarily achievable.

Brenda's Beaver Needs a Barber Bimisi Tayanita,Matt Williams,2016-12-01 Sumguyen has always had a thick mane of hair, in the summer of 2016 he decided to grow a beard. Deep into month three he started to look like an armpit with eyeballs.It was a sultry August night in Old Town Scottsdale as Bimisi and Sumguyen made their way from one bar to another. They took pause to to enjoy the rhythms of a homeless crooner who was soulfully picking his guitar. When Sumguyen threw a five into his tip jar the artist looked up, thanked him with a nod and said, That is a beautiful beard. My friend Brenda has a beard just like that, but hers doesn't talk.A fair amount of beer sprayed from Bimisi's nose...and just like that they had their subject matter for the final book of season one. Brenda's Beaver Needs a Barber is the fifth of five books that make up Reach Around Books Season One.

The Stress Response Christy Matta,2012-04-01 Life is stressful, and that's not always a bad thing. A certain amount of stress actually helps us work more productively and take action in a crisis. But recurrent and prolonged stress can paralyze us or lead us to feel exhausted, angry, or overwhelmed. The skills presented in The Stress Response can dramatically change

the way you process stress. And they don't take much time to learn. Drawn from a technique therapists use called dialectical behavior therapy, these powerful strategies can help you manage the slings and arrows of life more gracefully and effectively. After learning the skills in this book, you'll:

- Respond quickly to early signs of stress
- Approach, not avoid, stressful tasks and events
- Cope effectively with life events that contribute to stress
- Change the catastrophic thoughts and biases that make stress worse
- Practice soothing strategies for calming your body's stress response

The Physics and Art of Photography, Volume 1 John Beaver,2018-11-26 This book uses art photography as a point of departure for learning about physics, while also using physics as a point of departure for asking fundamental questions about the nature of photography as an art. Although not a how-to manual, the topics center around hands-on applications, most-often illustrated by photographic processes that are inexpensive and easily accessible to students (including a versatile new process developed by the author, and herein first described in print). A central theme is the connection between the physical interaction of light and matter on the one hand, and the artistry of the photographic processes and their results on the other. *Geometry and the Nature of Light* focuses on the physics of light and the optics of lenses, but also includes extended discussions of topics less commonly covered in a beginning text, including symmetry in art and physics, different physical processes of the scattering of light, photograms (photographic shadow prints) and the nature of shadows, elements of 2-dimensional design, pinhole photography and the view camera. Although written at a beginning undergraduate level, the topics are chosen for their role in a more general discussion of the relation between science and art that is of interest to readers of all backgrounds and levels of expertise.
