Sweating the Small Stuff David Whitman,2008 This book tells the story of six secondary schools that have succeeded in eliminating or dramatically shrinking the achievement gap between whites and disadvantaged black and Hispanic students. It recounts the stories of the University Park Campus School (UPCS) in Worcester, the American Indian Public Charter School in Oakland, Amistad Academy in New Haven, the Cristo Rey Jesuit High School in Chicago, the KIPP Academy in the Bronx, and the SEED school in Washington, D.C.

Naming the Lost: The Fresno Poets Christopher Buckley,2020-10-31 Philip Levine came to teach at Fresno State in 1958 and Peter Everwine followed in 1962; C.G. Hanclicek came in 1966 and the initial group of Fresno poets collected here became students and colleagues of theirs. Sadly, about one third of the poets in Naming the Lost are no longer with us. This book focuses then on the community of poets first coming through Fresno, beginning in the early 1960s, starting it all off. Naming the Lost: The Fresno Poets--Interviews & Essays, preserves an amazing nexus of poetic talent and fellowship, and documents the providence that brought so many outstanding poets to Fresno--early '60s through the '80s--a confluence and coincidence of talent and personalities unlikely to be seen again.

Faith Ed Linda K. Wertheimer,2015-08-18 An intimate cross-country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth-grade field trip. The class was visiting a mosque to learn about world religions when a handful of boys, unnoticed by their teachers, joined the line of worshippers and acted out the motions of the Muslim call to prayer. A video of the prayer went viral with the title "Wellesley, Massachusetts Public School Students Learn to Pray to Allah." Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren. Wellesley school officials defended the course, but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom. Courts long ago banned public school teachers from preaching of any kind. But the question remains: How much should schools teach about the world's religions? Answering that question in recent decades has pitted schools against their communities. Veteran education journalist Linda

K. Wertheimer spent months with that class, and traveled to other communities around the nation, listening to voices on all sides of the controversy, including those of clergy, teachers, children, and parents who are Muslim, Jewish, Christian, Sikh, or atheist. In Lumberton, Texas, nearly a hundred people filled a school-board meeting to protest a teacher's dress-up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam. In Wichita, Kansas, a Messianic Jewish family's opposition to a bulletin-board display about Islam in an elementary school led to such upheaval that the school had to hire extra security. Across the country, parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths. But in Modesto, a city in the heart of California's Bible Belt, teachers have avoided problems since 2000, when the school system began requiring all high school freshmen to take a world religions course. Students receive comprehensive lessons on the three major world religions, as well as on Sikhism, Hinduism, Buddhism, and often Shintoism, Taoism, and Confucianism. One Pentecostal Christian girl, terrified by "idols," including a six-inch gold Buddha, learned to be comfortable with other students' beliefs. Wertheimer's fascinating investigation, which includes a return to her rural Ohio school, which once ran weekly Christian Bible classes, reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans.

Teaching Religious Literacy to Combat Religious Bullying W. Y. Alice Chan, 2021-05-05 This text explores the phenomenon of religious bullying as it manifests in two North American contexts and theorizes religious literacy as a viable school-based intervention to promote understanding of religious and non-religious difference. Using substantive, qualitative data from schools and communities in California and Quebec, Teaching Religious Literacy to Combat Religious Bullying examines the impact of mandatory religious literacy courses delivered in secondary schools and identifies curricula, teacher attitudes, training, and administrative support as key determinants of course impact. Drawing on Bronfenbrenner's social-ecological framework, the text then illustrates how the environmental factors both in and outside of the school considerably

influence teacher and student attitudes to religious and non-religious traditions. Practical recommendations are made to combat overarching societal trends and religious discrimination within the classroom, and context is cited as key to an effective discussion on religious literacy more broadly. This text will benefit researchers, academics, and educators with an interest in religious literacy, religious education, the sociology of education, and those looking at the field of bullying and truancy more widely. Those interested in intersectionality, marginalized communities, secularism, and educational policy will also benefit from the volume.

Dust Bowl Venus: Poems Stella Beratlis,2021-05-02 Poetry. California Interest. Music. Sometimes the ground shifts under our feet and leaves us stumbling, our world changed. DUST BOWL VENUS documents that stumbling, that changed world, and also the regaining of a footing that, if not what we had hoped for, is what we live with. In her second powerful collection of poetry, framed by the lyrics of Modesto-based country-bluegrass songwriter, Hazel Houser, Stella Beratlis explores the landscapes of California's Great Central Valley, the landscapes of fear and hope in the cancer diagnosis of her daughter, and the landscape of regret --what we have let go and what we have gained from letting go. Beratlis pays her characteristic attention to detail, invoking, for example, Louis Armstrong's blue kitchen and the hinges squeaking on an ice chest lid, in order to create her complex, lyrical images. She writes that ghosts / have always been walking / through the spaces of our home, and she has listened to these ghosts. This book is filled with imagery and emotion that builds and curves and accumulates, leaving the reader breathless, glad for the shifting of the earth that gave us these poems.

Stef Soto, Taco Queen Jennifer Torres,2017-01-17 A deliciously charming and heartwarming novel, all wrapped up in a warm tortilla. Tacos. Burritos. Guacamole. Estefania Stef Soto is itching to shake off the onion-and-cilantro embrace of Tia Perla, her family's taco truck. She wants nothing more than for Papi to get a normal job and for the taco truck to be a distant memory. Then maybe everyone at school will stop calling her the Taco Queen. But when her family's livelihood is threatened, and it looks like her wish will finally come true, Stef surprises everyone (including herself) by becoming the truck's unlikely champion. In this fun and heartfelt novel, Stef will discover what matters most and ultimately embrace her identity, even if it includes old Tia Perla.

Sugar and Civilization April Merleaux,2015-07-13 In the weeks and months after the end of the Spanish-American War, Americans celebrated their nation's triumph by eating sugar. Each of the nation's new imperial possessions, from Puerto Rico to the Philippines, had the potential for vastly expanding sugar production. As victory parties and commemorations prominently featured candy and other sweets, Americans saw sugar as the reward for their global ambitions. April Merleaux demonstrates that trade policies and consumer cultures are as crucial to understanding U.S. empire as military or diplomatic interventions. As the nation's sweet tooth grew, people debated tariffs, immigration, and empire, all of which hastened the nation's rise as an international power. These dynamics played out in the bureaucracies of Washington, D.C., in the pages of local newspapers, and at local candy counters. Merleaux argues that ideas about race and civilization shaped sugar markets since government policies and business practices hinged on the racial characteristics of the people who worked the land and consumed its products. Connecting the history of sugar to its producers, consumers, and policy makers, Merleaux shows that the modern American sugar habit took shape in the shadow of a growing empire.

The Optimist Joshua Mehigan,2005-05-10 In Joshua Mehigan's award-winning poetry, one encounters a lucid, resolute vision driven by an amazing facility with the metrical line. Most of the poems in *The Optimist* unapologetically employ traditional poetic technique, and, in each of these, Mehigan stretches the fabric of living language over a framework of regular meter to produce a compelling sonic counterpoint. *The Optimist* stares at contemporary darkness visible, a darkly lit

tableau that erases the boundary between the world and the perceiving self. Whether narrative or lyric, dramatic or satirical, Mehigan's poems explore death, desire, and change with a mixture of reason and compassion. In choosing The Optimist for the Hollis Summers Poetry Prize, final judge James Cummins, wrote: "The world is given its due in these poems, but its due is the subjective voice making 'objective' reality into the reality of art. To do this Mehigan accesses a tradition of voices—the echoes in The Optimist are, to name a few, of Frost, Robinson, Kees, and Justice; and more in terms of point of view, Bishop and Jarrell—to form with great integrity his own. It isn't that Mehigan is concerned more with what's outside himself than inside; nor merely that he travels the highway between the two with such humility and grace. It's also that these voices, this great tradition, infuses his line with what the best verse, metrical or free, must have: wonder."

Organized Secularism in the United States Ryan T. Cragun, Christel Manning, Lori L. Fazzino, 2017-11-07 There has been a dramatic increase in the percentage of the US population that is not religious. However, there is, to date, very little research on the social movement that is organizing to serve the needs of and advocate for the nonreligious in the US. This is a book about the rise and structure of organized secularism in the United States. By organized secularism we mean the efforts of nonreligious individuals to build institutions, networks, and ultimately a movement that serves their interests in a predominantly religious society. Researchers from various fields address questions such as: What secularist organizations exist? Who are the members of these organizations? What kinds of organizations do they create? What functions do these organizations provide for their members? How do the secularist organizations of today compare to those of the past? And what is their likely impact on the future of secularism? For anyone trying to understand the rise of the nonreligious in the US, this book will provide valuable insights into organized efforts to normalize their worldview and advocate for their equal treatment in society.

Growth Hormone Deficiency in Adults Jens O. L. Jørgensen, Jens Sandahl Christiansen, 2005-01-01 It has been known for over 40 years that GH-deficient-children benefit from replacement with the hormone. But GH, essential for longitudinal growth, also plays a role after completion of final height. With the introduction of biosynthetic human GH 20 years ago, the use of GH was no longer restricted to severe growth retardation in hypopituitary children. This book will take the reader behind the myths of GH and into the real world of clinical endocrinology. The contributions stem from recognized clinicians and scientists who have been working in the field for decades. The contents encompass traditional end points of GH therapy such as body composition, bone biology and physical performance. Attention is also devoted to diagnostic aspects and side effects. Additional features range from clinical epidemiology to quality of life, and novel areas such as the impact of traumatic brain injury on pituitary function are also covered. The present volume of Frontiers of Hormone Research is essential reading for health care professionals interested in clinical endocrinology and GH.
